## Homeland Defense Initiatives

Presentation to  
**IEEE Homeland Security Technology Workshop**  
8 December 2005

Presented By

RICHARD ERWIN, CAPT. (ret)

(401) 832-4198, erwinra@npt.nuwcc.navyy.mil

NAVSEA - NAVAL UNDERSEA WARFARE CENTER DIVISION, NEWPORT RI

IEEE OES Homeland Security Technology Workshop 8 Dec 2005

Approved for public release: distribution is unlimited

# *Purpose*

- Provide an overview and update of strategic view of response to the Global War on Terrorism and Homeland Defense from several perspectives
  - National Security and Defense Strategies
  - Department of Defense Strategic Framework
  - Department of Navy Shaping its Response

IEEE OES Homeland Security Technology Workshop 8 Dec 2005

Approved for public release: distribution is unlimited

## *Strategic Landscape*

IEEE OES Homeland Security Technology Workshop 8 Dec 2005

Approved for public release: distribution is unlimited

# National Strategies

## Focused on the Global War on Terror

- Counter-Terrorism / Counter-Narcoterrorism
- Homeland Security
- WMD / CBRNE Defense

- Physical Protection of Critical Infrastructure and Key Assets (including Cyberspace)

- National Drug Control Strategy
- Maritime Domain Awareness
- Maritime Security

September 2002

### DOD Complement of Strategy Set

IEEE OES Homeland Security Technology Workshop 8 Dec 2005

- Global War on Terror (GWoT)
- All-Domain Awareness (Sea, Land, Air, Space, Cyberspace)
- Persistent surveillance
- Anti-Terrorism / Force Protection
- Deny proliferation
- Homeland Defense / Civil Support

Approved for public release: distribution is unlimited

# Military Strategy

### SECDEF TOP TEN

- 1. Successfully pursue the global war on terrorism.**
- 2. Strengthen combined/joint warfighting capabilities.**
3. Transform the joint force.
- 4. Optimize intelligence capabilities.**
- 5. Counter proliferation of WMD.**
6. Improve force manning.
- 7. New concepts of global engagement.**
- 8. Homeland security.**
9. Further streamline DoD processes.
10. Reorganize DoD and the U.S. government to deal with prewar opportunities and postwar responsibilities.

IEEE OES Homeland Security Technology Workshop 8 Dec 2005

Approved for public release: distribution is unlimited

# National Defense Strategies

- National Military Strategy
  - Win GWOT
  - Enhance Joint Warfighting
  - Transform for the Future
- National Defense Strategy (March 2005)
  - Secure the US from direct attack
  - Secure access to Global Commons and retain global freedom of action
  - Strengthen alliances and partnerships
  - Implementation Guidance:
    - Active, layered defense
    - Continuous transformation
    - Capabilities-based approach
    - Managing Risk

IEEE OES Homeland Security Technology Workshop 8 Dec 2005

Approved for public release: distribution is unlimited

## National Strategy for Maritime Security September 2005

- Maritime Domain defined:
  - “All areas and things of, on, under, relating to, adjacent to, or bordering on a sea, ocean, or other navigable waterway, including all maritime-related activities, infrastructure, people, cargo, and vessels and other conveyance.”
- “Security of the maritime domain requires comprehensive and cohesive efforts among the United States and many cooperating nations to protect the common interest in global maritime security”
- Prevent Terrorist Attacks and Criminal or Hostile Acts
- Protect Maritime-Related Population Centers and Critical Infrastructures
- Minimize Damage and Expedite Recovery
- Safeguard the Ocean and Its Resources

IEEE OES Homeland Security Technology Workshop 8 Dec 2005

Approved for public release: distribution is unlimited

# National Plan to Achieve Maritime Domain Awareness

## October 2005

“Foundation for an effective understanding of anything associated with the maritime domain that could impact the security, safety, economy, or environment of the United States, and identifying threats as early and as distant from our shores as possible.”

### MARITIME OPERATIONAL DOMAIN

...Be able to **detect terrorists on the high seas**, armed with WMD. We will fully integrate our **surface, subsurface, air, and surveillance assets**, focus them forward, and **identify, track, and intercept** threats at a safe distance from the US.

... This requires an integrated system of overlapping defenses – both **adaptable and flexible** – to frustrate enemy observation and **avoid predictability**.

...Together with USCG, **strengthen security in our ports and littorals, expanding maritime defense capabilities** further seaward.

### Shift from “Naval” to “Maritime” Capabilities

Deter / detect / deny / defeat terrorists in the global commons

IEEE OES Homeland Security Technology Workshop 8 Dec 2005

Approved for public release: distribution is unlimited

# DoD Strategy for Homeland Defense and Civil Support

## June 2005

- Defines Leadership and Supporting Roles
- Advocates active, layered defense concept
- Prioritized Objectives
  - LEAD
    - *Achieve maximum awareness of potential threats*
    - *Deter, intercept, and defeat threats at a safe distance*
    - *Achieve mission assurance*
  - SUPPORT
    - *Support consequence management for CBRNE mass-casualty attacks*
  - ENABLE
    - *Improve US and international capabilities for homeland defense / homeland security*

IEEE OES Homeland Security Technology Workshop 8 Dec 2005

Approved for public release: distribution is unlimited

# Navy Alignment Activities

- CNO Guidance for 2006
- “1000-Ship Navy” Vision
- OPNAV
  - GWOT Campaign Studies underway
- CFFC
  - CONOPS Development (C2F, C3F)
    - NORTHCOM JFMCC
  - Naval Expeditionary Combat Command
    - *Riverine Force Capability*

**Increased Emphasis on Focusing GWOT Roles and Capabilities**

IEEE OES Homeland Security Technology Workshop 8 Dec 2005

Approved for public release: distribution is unlimited

## CNO Guidance for 2006 Specific Objectives

- **Support from the sea and ashore the joint and combined war on terror, while staying ready in all respects to meet other operational requirements.**
- Determine and deliver on the Navy's future force structure requirements by
  1. defining an improved force structure and construction plan and
  2. contributing to a stable industrial base.
- Execute Sea Warrior and other manpower and personnel transformational efforts.
- With the USMC, increase the value of naval contributions to the Joint Force.
- **Develop closer working relationships with the U.S. Coast Guard and other governmental and non-governmental organizations to support national security policy, enhance homeland defense and improve maritime domain awareness (MDA).**
- Apply effects-based thinking across the Navy.
- Become leaders of change and innovation.

To support the joint and combined war on terror and stay ready for all operational requirements, we will develop *adaptive force packages and flexible deployment concepts to include NSW, U.S. Coast Guard, and coalition partners* in support of *operations in blue, green, and brown water environments* that are *aligned with the National Fleet policy and the National Strategy for Maritime Security* [CFFC, N3/N5, N8, N6/N7]

To develop closer working relationships with USCG and OGA and NGO, we will:

- Develop Global Maritime Intelligence Integration (GMII) as part of JFMCC and MDA ISO Joint, Navy, and interagency ops. [CFFC, N2]
- In line with the National Fleet policy, engage with the U.S. Coast Guard to leverage the National Strategy for Maritime Security to more rapidly develop capabilities for Homeland Security, particularly in the area of Maritime Domain Awareness. [N3/5, CFFC, N6/7]

CNO Guidance for 2006, October 2005

IEEE OES Homeland Security Technology Workshop 8 Dec 2005

Approved for public release: distribution is unlimited

# *1000-Ship Navy*

*CNO Remarks at International Seapower Symposium, Naval War College 21 Sep 05*

- Rationale
  - “No nation today can go it alone, especially in the maritime domain”
  - “Because today's challenges are global in nature, we must be collective in our response”

- Vision
  - “A global network that focuses on making the maritime domain safer for everyone's use”
  - “A 1,000-ship Navy— a fleet-in-being made of the best capabilities of all freedom-loving navies”
  - “A fleet of ships **fully netted and connected**- not only to each other, but **integrated with the joint force**, as well as DEA or the FBI, or the Customs and Border Control agencies of any number of other nations, not just our own”
  - “**Increased interoperability** through more standardized training, procedures, and **command and control protocols**”
  - “This 1,000-ship Navy would integrate the capabilities of the maritime services to **create a fully interoperable force – an international city at sea**”

***Emphasis on establishing personal relationships and interoperability for joint and coalition capabilities***

IEEE OES Homeland Security Technology Workshop 8 Dec 2005

Approved for public release: distribution is unlimited

## *Summary*

- We are a Nation and a Navy at war.
- We seek Americans secure at home and abroad, sea and air lanes open and free for commerce.
- We seek cooperation among maritime forces of emerging nations.
- We will maintain a combat-ready Navy, lethal enough to deter any threat and defeat any foe in support of the Joint Force.
